Proceedings (Plant Sciences)

Volume 96, 1987

SUBJECT INDEX

Acalypha fruiticosa
Sex-ratio variations in *Acalypha fruiticosa* Frosk along plant height and altitude 11
Achene germination
Effect of temperature, imbibition and light on achene germination of two weedy species of *Eupatorium* 325
Aminopeptidase
Profiles of proteolytic activities during senescence of primary leaves of mung bean (*Vigna radiata* (L) Wilczek) 215
Amylase
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Anatomy
Anatomy of three species of *Bulbophyllum* (Orchidaceae) with comments on their ecological adaptability and taxonomy 391
Aneusomaty
Colchicine induced chromosome mosaicism in chili pepper (*Capsicum annuum* L.) 55
Anthoceros
Morpho-taxonomy of *Anthoceros crispulus* (Mont.) Douin from south India 385
Anthocerotaceae
Morpho-taxonomy of *Anthoceros crispulus* (Mont.) Douin from south India 385
Anthocerotales
Morpho-taxonomy of *Anthoceros crispulus* (Mont.) Douin from south India 385
Anthophora confusa
Pollination ecology of *Solanum sysimbrifolium* Lamk 295
Apluda mutica
Embryology of *Apluda mutica* (Poaceae) 461
Arachis
Numerical chemotaxonomy of *Arachis* 425
Arrhenothrips
Morphological patterns and histochemical profile in *Mimusops-Arrhenothrips* gall system 203
Asclepiadaceae
Structure and development of stomata on the fruit wall of *Calotropis procera* (Ait.) R. Br. 449
Aspergillus quadricinctus
Cellulase production by *Penicillium pinophilum*, *Aspergillus quadricinctus* and *Gliomastix murorum* 63
Associated bacteria
Bacterial associates of the slime mould *Physarum nicaraguense* Macbr. 469
Autotrophic growth
Sites of action of pyridazinone herbicides (SANDOZ 9785 and 9789) on *Chlorella prototheocoides* 415
Azolla pinnata
The influence of fertilizers on sporocarp formation in *Azolla pinnata* 223
Azolla pinnata isolates
Growth and N_2-fixation of various Indian isolates of *Azolla pinnata* R. Br. under laboratory and field conditions 227
Azospirillum
Nitrogenase activity of pearl millet-*Azospirillum* association in relation to the availability of organic carbon in the root exudates 33

Bacidia
Species of the lichen genera *Bacidia*, *Badimia*, *Fellhanera* and *Mycobilimbia* from India
Badimia
Species of the lichen genera *Bacidia*, *Badimia*, *Fellhanera* and *Mycobilimbia* from India
Barnyard grass
Effect of benthiocarb on epicuticular wax and silica content in rice and barnyard grass 457
Basal cover
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265
Benthiocarb
Effect of benthiocarb on epicuticular wax and silica content in rice and barnyard grass 457
Borreria
Genus *Spermacoce* Linn. (Rubiaceae) in India 347
Bottle gourd mosaic virus
Effect of bottle gourd mosaic virus on powdery mildew development in bottle gourd (*Lagenaria siceraria* (Mol.) Standl.) 475
Bryophyta
Morpho-taxonomy of *Anthoceros crispulus* (Mont.) Douin from south India 385
Bryophytes
Pigment concentration of ten bryophytes from Nainital, Kumaun Himalayas 75
Bulbils
Bulbils of some charophytes 257

Bulbophyllum
Anatomy of three species of *Bulbophyllum* (Orchidaceae) with comments on their ecological adaptability and taxonomy 391

Calotropis procera
Structure and development of stomata on the fruit wall of *Calotropis procera* (Ait.) R. Br. 449

Capsicum annuum
Colchicine induced chromosome mosaicism in chili pepper (*Capsicum annuum* L.) 55

Carbohydrates
Plant carbohydrates-An overview 81

Carbon dioxide evolution
Effect of chemical composition on leaf-litter decomposition in forest soil 399

Carboxypeptidase
Profiles of proteolytic activities during senescence of primary leaves of mung bean (*Vigna radiata* (L) Wilczek) 215

Carotenoids
Pigment concentration of ten bryophytes from Nainital, Kumaun Himalayas 75

Cassia Linn.
Venation pattern in Indian species of *Cassia* Linn. 337

Cellulase production
Cellulase production by *Penicillium pinophilum*, *Aspergillus quadricinctus* and *Gliomastix murorum* 63

Cellulose
Plant carbohydrates-An overview 81

Chara
Bulbils of some charophytes 257
Algicidal action of Diurone in the control of *Chara*—a rice pest 359

Chemical composition
Effect of chemical composition on leaf-litter decomposition in forest soil 399

Chemotaxonomy
Chemosystematics of some Indian members of the Acanthaceae 315
Numerical chemotaxonomy of *Arachis* 425

Chili pepper
Colchicine induced chromosome mosaicism in chili pepper (*Capsicum annuum* L.) 55

Chlorophyll *a/b* ratio
Pigment concentration of ten bryophytes from Nainital, Kumaun Himalayas 75

Chlorophylls
Pigment concentration of ten bryophytes from Nainital, Kumaun Himalayas 75

Chromosomal sterility
Cytology of hybrids between *Solanum nigrum* L. and *Solanum furcatum* Dun. 371

Chromosome mosaicism
Colchicine induced chromosome mosaicism in chili pepper (*Capsicum annuum* L.) 55

Chrysanthemum
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377

Circumscription
Genus *Spermacoce* Linn. (Rubiaceae) in India 347

Coconut
Genotype dependent variation in vesicular-arbuscular mycorrhizal colonisation of coconut seedlings 289

Coexistence
Coexistence of closely related *Eupatorium* species I. *Eupatorium odoratum* L. versus *Eupatorium adenophorum* Spreng. and *Eupatorium adenophorum* Spreng. versus *Eupatorium riparium* Regel. at different altitudes 165
Coexistence of closely related *Eupatorium* species II. *Eupatorium adenophorum* Spreng. and *Eupatorium riparium* Regel. at different altitudes 177

Colchicine
Colchicine induced chromosome mosaicism in chili pepper (*Capsicum annuum* L.) 55

Colony
Effect of bottle gourd mosaic virus on powdery mildew development in bottle gourd (*Lagenaria siceraria* (Mol.) Standl.) 475

Competition
Coexistence of closely related *Eupatorium* species. I. *Eupatorium odoratum* L. versus *Eupatorium adenophorum* Spreng. and *Eupatorium adenophorum* Spreng. versus *Eupatorium riparium* Regel. at different altitudes 165
Coexistence of closely related *Eupatorium* species II. *Eupatorium adenophorum* Spreng. and *Eupatorium riparium* Regel. at different altitudes 177

Community coefficient
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265

C:N ratio
Effect of chemical composition on leaf-litter decomposition in forest soil 399

Crop
The occurrence of *Eleusine africana* Kennedy O'Byrne in India and its significance in the origin of *Eleusine coracana* 1

Cultivars
Genotype dependent variation in vesicular-arbuscular mycorrhizal colonisation of coconut seedlings 289

Cytological effect
Algicidal action of Diurone in the control of *Chara*—a rice pest 359

Cytomorphology
Cytomorphological studies of the hybrids

between *Solanum pubescens*, *Solanum incanum* and *Solanum indicum* 49

Decomposition
Effect of chemical composition on leaf-litter decomposition in forest soil 399

Dehiscence
Structural design of the developing and mature pericarp of *Hibiscus sabdariffa* L. 17

Developmental morphology
Bulbils of some charophytes 257

Development
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377

Distribution
Organographic distribution, structure and ontogeny of laticifers in *Plumeria alba* Linn. 25
Genus *Spermacoce* Linn. (Rubiaceae) in India 347

Diurone
Algicidal action of Diurone in the control of *Chara*—a rice pest 359

DNA
Impact of nucleic acid comparisons on the classification of fungi 185

Ecological adaptability
Anatomy of three species of *Bulbophyllum* (Orchidaceae) with comments on their ecological adaptability and taxonomy 391

Eleusine
The occurrence of *Eleusine africana* Kennedy O'Byrne in India and its significance in the origin of *Eleusine coracana* 1

Embryology
Embryology of *Micrargeria wightii* Benth. (Scrophulariaceae) 277
Embryology of *Apluda mutica* (Poaceae) 461

EMS
Male sterile mutant in *Vigna radiata* 411

Endopeptidase
Profiles of proteolytic activities during senescence of primary leaves of mung bean (*Vigna radiata* (L) Wilczek) 215

Endosperm
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39

Endothecium
Ontogeny and histochemistry of anther wall in *Saxifraga ciliata* Lindl. 301

Epicuticular wax
Effect of benthiocarb on epicuticular wax and silica content in rice and barnyard grass 457

Epidermis
Ontogeny and histochemistry of anther wall in *Saxifraga ciliata* Lindl. 301

Erysiphae polygoni
Screening for powdery mildew (*Erysiphae polygoni* DC.) resistance in mungbean (*Vigna radiata* (L.) Wilczek) using excised leaves 365

Eupatorium spp
Effect of temperature, imbibition and light on achene germination of two weedy species of *Eupatorium* 325

Exostomatic
Structure and development of stomata on the fruit wall of *Calotropis procera* (Ait.) R. Br. 449

Fellhanera
Species of the lichen genera *Bacidia*, *Badimia*, *Fellhanera and Mycobilimbia* from India 481

Fertilizers
The influence of fertilizers on sporocarp formation in *Azolla pinnata* 223

Fire
Standing state and cycling of nitrogen in a Garhwal Himalayan grassland under grazing, burning and protection against herbage removal regimes 433

Flavonoids
Chemosystematics of some Indian members of the Acanthaceae 315

Forest ecosystem
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265

Free amino acids
Effects of seawater salinity on free amino acids and mineral ions in *Suaeda nudiflora* Moq. 309

Fresh weight
Growth and N_2-fixation of various Indian isolates of *Azolla pinnata* R. Br. under laboratory and field conditions 227

Fungus
Xylanolytic activity of thermophilic *Sporotrichum* sp. and *Myceliophthora thermophilum* 247

Galls
Morphological patterns and histochemical profile in *Mimusops-Arrhenothrips* gall system 203

Garhwal Himalayan grassland
Standing state and cycling of nitrogen in a Garhwal Himalayan grassland under grazing, burning and protection against herbage removal regimes 433

Genotype
Genotype dependent variation in vesicular-arbuscular mycorrhizal colonisation of coconut seedlings 289
Gerardeae
Embryology of *Micrargeria wightii* Benth. (Scrophulariaceae) 277
Gliomastix murorum
Cellulase production by *Penicillium pinophilum*, *Aspergillus quadricinctus* and *Gliomastix murorum* 63
Glomus fasciculatum
Effect of pH, temperature and nutrients on the germination of a vesicular-arbuscular mycorrhizal fungus, *Glomus fasciculatum* in vitro 231
Gray unit
Male sterile mutant in *Vigna radiata* 411
Grazing
Standing state and cycling of nitrogen in a Garhwal Himalayan grassland under grazing, burning and protection against herbage removal regimes 433
Growth conditions
Growth and N_2-fixation of various Indian isolates of *Azolla pinnata* R. Br. under laboratory and field conditions 227
Gums and mucilages
Plant carbohydrates-An overview 81

Hemicellulose
Plant carbohydrates-An overview 81
Heterotrophic growth
Sites of action of pyridazinone herbicides (SANDOZ 9785 and 9789) on *Chlorella protothecoides* 415
Hibiscus
Structural design of the developing and mature pericarp of *Hibiscus sabdariffa* L. 17
Histochemistry
Morphological patterns and histochemical profile in *Mimusops-Arrhenothrips* gall system 203
Hybrids
Genotype dependent variation in vesicular-arbuscular mycorrhizal colonisation of coconut seedlings 289

Immobilization
Releasing pattern of nitrogen, phosphorus and potassium from decomposing litter in arid to semi-arid climatic conditions 157
Importance value index
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265
Indian lichens
Species of the lichen genera *Bacidia*, *Badimia*, *Fellhanera* and *Mycobilimbia* from India 481
Indigofera
Chemosystematics of some species of *Indigofera* 443
Insoluble polysaccharides
Ontogeny and histochemistry of anther wall in *Saxifraga ciliata* Lindl. 301
Interspecific hybrids
Cytomorphological studies of the hybrids between *Solanum pubescens*, *Solanum incanum* and *Solanum indicum* 49
Invertase
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Irradiance
Pigment concentration of ten bryophytes from Nainital, Kumaun Himalayas 75

Lamprothamnium
Bulbils of some charophytes 257
Laticifers
Organographic distribution, structure and ontogeny of laticifers in *Plumeria alba* Linn. 25
Leaf area
Effect of bottle gourd mosaic virus on powdery mildew development in bottle gourd (*Lagenaria siceraria* (Mol.) Standl.) 475
Leaf-litter
Effect of chemical composition on leaf-litter decomposition in forest soil 399
Lignin
Effect of chemical composition on leaf-litter decomposition in forest soil 399
Lignocellulose
Xylanolytic activity of thermophilic *Sporotrichum* sp. and *Myceliophthora thermophilum* 247

Male sterile mutant
Male sterile mutant in *Vigna radiata* 411
Micrargeria
Embryology of *Micrargeria wightii* Benth. (Scrophulariaceae) 277
Mimusops
Morphological patterns and histochemical profile in *Mimusops-Arrhenothrips* gall system 203
Minerals
Effects of seawater salinity on free amino acids and mineral ions in *Suaeda nudiflora* Moq. 309
Molecular evolution
Impact of nucleic acid comparisons on the classification of fungi 185
Monoecious mutant
Contribution to the embryology of mulberry (*Morus alba* var. *Kanva*-2) 405

Morphology
Morphological patterns and histochemical profile in *Mimusops-Arrhenothrips* gall system 203
Morus alba var *Kanva*-2 embryology
Contribution to the embryology of mulberry (*Morus alba* var. *Kanva*-2) 405
Mungbean
Screening for powdery mildew (*Erysiphae polygoni* DC.) resistance in mungbean (*Vigna radiata* (L.) Wilczek) using excised leaves 365
Mycobilimbia
Species of the lichen genera *Bacidia*, *Badimia*, *Fellhanera* and *Mycobilimbia* from India 481
Myxomycete
Bacterial associates of the slime mould *Physarum nicaraguense* Macbr. 469

N_2-ase activity
Nitrogenase activity of pearl millet-*Azospirillum* association in relation to the availability of organic carbon in the root exudates 33
Nitellopsis
Bulbils of some charophytes 257
Nitrogenase activity
Growth and N_2-fixation of various Indian isolates of *Azolla pinnata* R. Br. under laboratory and field conditions 227
Nitrogen
Releasing pattern of nitrogen, phosphorus and potassium from decomposing litter in arid to semi-arid climatic conditions 157
Effect of chemical composition on leaf-litter decomposition in forest soil 399
Standing state and cycling of nitrogen in a Garhwal Himalayan grassland under grazing, burning and protection against herbage removal regimes 433
Nitrogenous compounds
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39
Numerical analysis
Numerical chemotaxonomy of *Arachis* 425
Nutrients
Effect of pH, temperature and nutrients on the germination of a vesicular-arbuscular mycorrhizal fungus, *Glomus fasciculatum* in vitro 231

Ontogeny
Organographic distribution, structure and ontogeny of laticifers in *Plumeria alba* Linn. 25
Organic carbon
Nitrogenase activity of pearl millet-*Azospirillum* association in relation to the availability of organic carbon in the root exudates 33
Origin
The occurrence of *Eleusine africana* Kennedy O'Byrne in India and its significance in the origin of *Eleusine coracana* 1

Parquetry pattern
Structure and development of stomata on the fruit wall of *Calotropis procera* (Ait.) R. Br. 449
Patterns of variability
Anatomical contributions to the taxonomy of some Verbenaceae: Petiole 235
Penicillium pinophilum
Cellulase production by *Penicillium pinophilum*, *Aspergillus quadricinctus* and *Gliomastix murorum* 63
Pearl millet
Nitrogenase activity of pearl millet-*Azospirillum* association in relation to the availability of organic carbon in the root exudates 33
Pericarp
Structural design of the developing and mature pericarp of *Hibiscus sabdariffa* L. 17
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39
Contribution to the embryology of mulberry (*Morus alba* var. *Kanva*-2) 405
Petiolar anatomy
Anatomical contributions to the taxonomy of some Verbenaceae: Petiole 235
pH
Effect of pH, temperature and nutrients on the germination of a vesicular-arbuscular mycorrhizal fungus, *Glomus fasciculatum* in vitro 231
Phenolic constituents
Chemosystematics of some species of *Indigofera* 443
Phosphorus
Releasing pattern of nitrogen, phosphorus and potassium from decomposing litter in arid to semi-arid climatic conditions 157
Physalis
Protoplast culture and genetic transformation in *Physalis minima* L. 333
Physarum nicaraguense
Bacterial associates of the slime mould *Physarum nicaraguense* Macbr. 469
Plant height
Sex-ratio variations in *Acalypha fruticosa* Frosk along plant height and altitude 11
Plasmodial growth
Bacterial associates of the slime mould *Physarum nicaraguense* Macbr 469
Plumeria alba
Organographic distribution, structure and ontogeny of laticifers in *Plumeria alba* Linn. 25
Poaceae
Embryology of *Apluda mutica* (Poaceae) 461

Pollen donation ability
Sex-ratio variations in *Acalypha fruiticosa* Frosk along plant height and altitude 11
Pollination ecology
Pollination ecology of *Solanum sysimbrifolium* Lamk. 295
Polysaccharides
Plant carbohydrates-An overview 81
Population dynamics
Coexistence of closely related *Eupatorium* species. I. *Eupatorium odoratum* L. versus *Eupatorium adenophorum* Spreng. and *Eupatorium adenophorum* Spreng. versus *Eupatorium riparium* Regel. at different altitudes 165
Coexistence of closely related *Eupatorium* species II. *Eupatorium adenophorum* Spreng. and *Eupatorium riparium* Regel. at different altitudes 177
Potassium
Releasing pattern of nitrogen, phosphorus and potassium from decomposing litter in arid to semi-arid climatic conditions 157
Powdery mildew appearance
Effect of bottle gourd mosaic virus on powdery mildew development in bottle gourd (*Lagenaria siceraria* (Mol.) Standl.) 475
Powdery mildew
Screening for powdery mildew (*Erysiphae polygoni* DC.) resistance in mungbean (*Vigna radiata* (L.) Wilczek) using excised leaves 365
Protease
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39
Protection
Standing state and cycling of nitrogen in a Garhwal Himalayan grassland under grazing, burning and protection against herbage removal regimes 433
Protein mobilization
Profiles of proteolytic activities during senescence of primary leaves of mung bean (*Vigna radiata* (L) Wilczek) 215
Protoplasts
Protoplast culture and genetic transformation in *Physalis minima* L. 333
Pyridazinones
Sites of action of pyridazinone herbicides (SANDOZ 9785 and 9789) on *Chlorella protothecoides* 415

Ray floret
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Regeneration
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265
Releasing pattern
Releasing pattern of nitrogen, phosphorus and potassium from decomposing litter in arid to semi-arid climatic conditions 157
Resistance
Screening for powdery mildew (*Erysiphae polygoni* DC.) resistance in mungbean (*Vigna radiata* (L.) Wilczek) using excised leaves 365
Ribosomal RNA
Impact of nucleic acid comparisons on the classification of fungi 185
Rice
Effect of benthiocarb on epicuticular wax and silica content in rice and barnyard grass 457
Root exudates
Nitrogenase activity of pearl millet-*Azospirillum* association in relation to the availability of organic carbon in the root exudates 33

Salinity
Effects of seawater salinity on free amino acids and mineral ions in *Suaeda nudiflora* Moq. 309
Scrophulariaceae
Embryology of *Micrargeria wightii* Benth. (Scrophulariaceae) 277
Seed coat
Contribution to the embryology of mulberry (*Morus alba* var. *Kanva-2*) 405
Senescence
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Sex-ratio variations along altitude
Sex-ratio variations in *Acalypha fruiticosa* Frosk along plant height and altitude 11
Silica
Effect of benthiocarb on epicuticular wax and silica content in rice and barnyard grass 457
Solanum furcatum Dun.
Cytology of hybrids between *Solanum nigrum* L. and *Solanum furcatum* Dun. 371
Solanum incanum
Cytomorphological studies of the hybrids between *Solanum pubescens*, *Solanum incanum* and *Solanum indicum* 49
Solanum indicum
Cytomorphological studies of the hybrids between *Solanum pubescens*, *Solanum incanum* and *Solanum indicum* 49
Solanum nigrum L.
Cytology of hybrids between *Solanum nigrum* L. and *Solanum furcatum* Dun. 371
Solanum pubescens
Cytomorphological studies of the hybrids between *Solanum pubescens*, *Solanum incanum* and *Solanum indicum* 49

Solanum sysimbrifolium
Pollination ecology of *Solanum sysimbrifolium* Lamk. 295
Species diversity
Analysis of forest vegetation at Kasar Devi hill of north-west Almora division in Kumaun Himalaya 265
Spermacoce
Genus *Spermacoce* Linn. (Rubiaceae) in India 347
Sphaerotheca fuliginea
Effect of bottle gourd mosaic virus on powdery mildew development in bottle gourd (*Lagenaria siceraria* (Mol.) Standl.) 475
Sporocarp formation
The influence of fertilizers on sporocarp formation in *Azolla pinnata* 223
Starch
Plant carbohydrates-An overview 81
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Sterile hybrids
Cytology of hybrids between *Solanum nigrum* L. and *Solanum furcatum* Dun. 371
Structural diversity
Anatomical contributions to the taxonomy of some Verbenaceae: Petiole 235
Structure
Structural design of the developing and mature pericarp of *Hibiscus sabdariffa* L. 17
Organographic distribution, structure and ontogeny of laticifers in *Plumeria alba* Linn. 25
Suaeda nudiflora
Effects of seawater salinity on free amino acids and mineral ions in *Suaeda nudiflora* Moq. 309
Sugars
Correlated changes in carbohydrate levels and associated enzyme activities during development and senescence of ray florets in *Chrysanthemum* 377
Systematics
Embryology of *Micrargeria wightii* Benth. (Scrophulariaceae) 277

Tapetum
Ontogeny and histochemistry of anther wall in *Saxifraga ciliata* Lindl. 301
Taxonomic implications
Anatomy of three species of *Bulbophyllum* (Orchidaceae) with comments on their ecological adaptability and taxonomy 391
Taxonomic significance
Chemosystematics of some species of *Indigofera* 443
Taxonomy
Impact of nucleic acid comparisons on the classification of fungi 185
Anatomical contributions to the taxonomy of some Verbenaceae: Petiole 235
Temperature
Effect of pH, temperature and nutrients on the germination of a vesicular-arbuscular mycorrhizal fungus, *Glomus fasciculatum* in vitro 231
Thermophilic
Xylanolytic activity of thermophilic *Sporotrichum* sp. and *Myceliophthora thermophilum* 247
Ti-plasmid
Protoplast culture and genetic transformation in *Physalis minima* L. 333
Triticum aestivum L.
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39

VA mycorrhizae
Genotype dependent variation in vesicular-arbuscular mycorrhizal colonisation of coconut seedlings 289
Venation pattern
Venation pattern in Indian species of *Cassia* Linn. 337
Verbenaceae
Anatomical contributions to the taxonomy of some Verbenaceae: Petiole 235
Vesicular-arbuscular mycorrhiza
Effect of pH, temperature and nutrients on the germination of a vesicular-arbuscular mycorrhizal fungus, *Glomus fasciculatum* in vitro 231
Vigna radiata
Profiles of proteolytic activities during senescence of primary leaves of mung bean (*Vigna radiata* (L) Wilczek) 215
Screening for powdery mildew (*Erysiphae polygoni* DC.) resistance in mungbean (*Vigna radiata* (L.) Wilczek) using excised leaves 365
Male sterile mutant in *Vigna radiata* 411

Weed biology
Coexistence of closely related *Eupatorium* species I. *Eupatorium odoratum* L. versus *Eupatorium adenophorum* Spreng. and *Eupatorium adenophorum* Spreng. versus *Eupatorium riparium* Regel. at different altitudes 165
Coexistence of closely related *Eupatorium* species. II. *Eupatorium adenophorum* Spreng. and *Eupatorium riparium* Regel. at different altitudes 177
Effect of temperature, imbibition and light on achene germination of two weedy species of *Eupatorium* 325

Wheat
Nitrogenous compounds and protease activity in developing testa-pericarp and endosperm of high and low protein wheat (*Triticum aestivum* L.) 39

Xylanase
Xylanolytic activity of thermophilic *Sporotrichum* sp. and *Myceliophthora thermophilum* 247

Xylocopa fenestrata
Pollination ecology of *Solanum sysimbrifolium* Lamk. 295

Xylocopa pubescence
Pollination ecology of *Solanum sysimbrifolium* Lamk. 295
